PRESS RELEASE

South Coast Specialty Chemicals Announces Skin-Contact Adhesive

North American Distributor of Eternal Chemicals

Piqua, OHIO September 2012: South Coast Specialty Chemicals releases skin-contact test results on Product FASC-Tac 855P. Independent test results from NAMSA are now available on the FASC-Tac 855P solvent acrylic pressure sensitive adhesive. Results show favorable outcomes in three separate reports: ISO 10993-5 Cytotoxicity, ISO 10993-10 Skin Irritation and ISO 10993-10 Closed Patch Dermal Contact Sensitization.

NAMSA Test Reports are available upon request. FASC-Tac 855-P is readily available in-stock packaged in metal drums (400 pounds) from South Coast Specialty Chemicals Ohio facility.

Background: South Coast Specialty Chemicals has been the exclusive distributor of Eternal Chemical Co., LTD. For more than ten years. South Coast Specialty Chemicals offers a dedicated staff of polymer scientists in conjunction with expedient technical service personnel. Eternal Chemical Co., LTD. headquartered in Taiwan has been producing pressure sensitive resins since 1964. Since 2007 Jennings Group, LLC continues to represent a portfolio of products dedicated to the tape and label industry.
