PRESS RELEASE

Saitack® 7232 Removable Pressure Sensitive Adhesive.

Sanford, North Carolina December 2013: STI Polymer has successfully commercialized Saitack® 7232 a high performance removable pressure sensitive adhesive to the tape & Label industry. Saitack® 7232 exhibits high cohesive strength along with exceptionally high tack. Long term adhesion testing indicates Saitack® 7232 maintains an unusually stable peel adhesion for long term applications. Additionally, Saitack® 7232 is compliant with FDA (21 CFR) 175.105 indirect food contact applications. Both coated and wet samples are readily available upon request. Orders typically ship within two weeks packaged in totes or poly drums.

Background: Jennings Group, LLC represents STI Polymer. STI Polymer (Formerly Saiden Technologies) manufactures acrylic emulsion polymers in Sanford, North Carolina, for adhesive and coating applications in the Americas.
